

Update on Community Transportation Grant

Middlesex County Council

June 2018

Community Transportation Grant

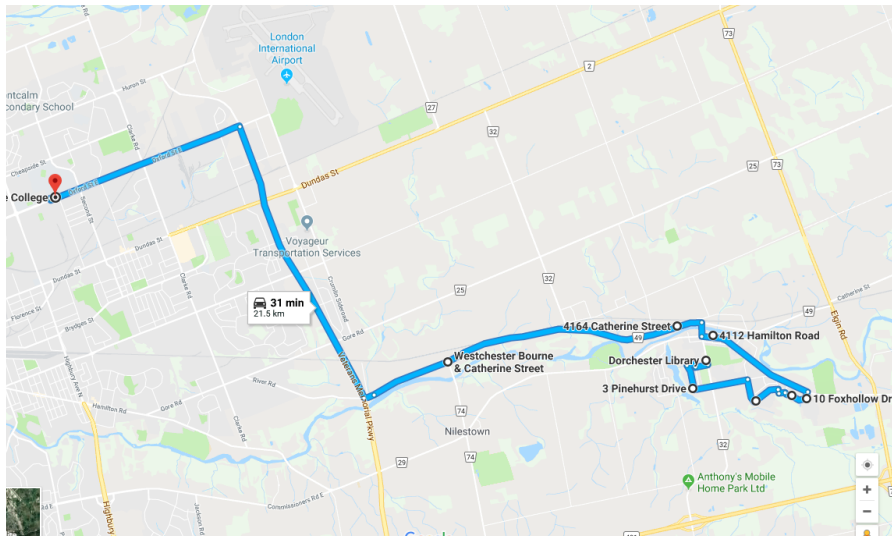

- \$1.5 million over 5 years
- Microtransit service
- Link communities to principal urban areas
- Test and learn approach to shape the system
- Starting in Thames Centre
- Three phases: community engagement, pilot, full implementation
- Evaluation conducted in each phase

Phase One: Community Engagement

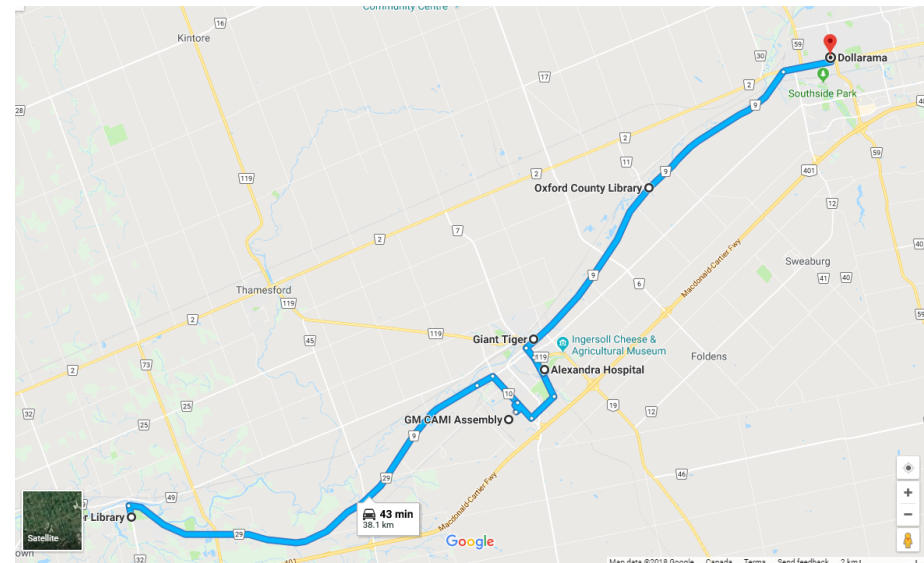

- Ask individuals, employers, and service providers to provide feedback about:
 - Proposed routes
 - Stops
 - Destinations
 - Fares
 - Service delivery model
- Develop service model for the pilot of the microtransit system

Phase Two: Pilot

- Pilot one route of the microtransit service, originating in Dorchester
- Potential routes to London and Woodstock (via Ingersoll)
- Pilot must start in year one of the funding (before May 2019)
- Pilot will operate for one year and be evaluated

Dorchester to London

Dorchester to Woodstock

Phase Three: Full Implementation

- Broader implementation of the microtransit service, with multiple routes
- Evaluation will be conducted one year into full implementation
- Further routes will be explored
- Focus on long-term sustainability

Key Next Steps

- Make a presentation to Thames Centre Council
- Conduct community engagement
- Develop service delivery model for the pilot
- Meet with London Transit Commission, Town of Ingersoll, and Woodstock Transit re: potential stops in London, Ingersoll and Woodstock
- Identify service provider for the pilot phase
